MYOBLOC COPAY PROGRAM TODAY!**

IMPORTANT SAFETY INFORMATION

MYOBLOC[®] may cause serious side effects that can be life threatening. Call your doctor or get medical help right away if you have any of these problems anytime (hours to weeks) after treatment with MYOBLOC:

- **Problems swallowing, speaking, or breathing** if the muscles that you use to breathe and swallow become weak after the injection. Death can happen as a complication if you have severe problems with swallowing or breathing after treatment with MYOBLOC.
- People with certain breathing problems may need to use muscles in their neck to help them breathe and may be at greater risk for serious breathing problems with MYOBLOC.
- Swallowing problems may last for several months. People who cannot swallow well may need a feeding tube to receive food and water. If swallowing problems are severe, food or liquids may go into your lungs. People who already have swallowing or breathing problems before receiving MYOBLOC have the highest risk of getting these problems.
- **Spread of toxin effects.** In some cases, the effect of botulinum toxin may affect areas of the body away from the injection site and cause symptoms of a serious condition called botulism. The symptoms of botulism include loss of strength and muscle weakness all over the body, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice (dysphonia), trouble saying words clearly (dysarthria), loss of bladder control, trouble breathing, trouble swallowing (dysphagia).

MYOBLOC (rimabotulinumtoxinB) Injection is indicated for the treatment of adults with cervical dystonia to reduce the severity of abnormal head position and neck pain associated with cervical dystonia.

MYOBLOC is indicated for the treatment of sialorrhea in adults.

Please see Important Safety Information on the back page and enclosed full Prescribing Information, including Boxed WARNING and Medication Guide.

MYOBLOC COPAY PROGRAM

Who's eligible?

Patients who:

- Are 18 years or older and a legal U.S. resident
- Have commercial insurance coverage
- Are diagnosed with cervical dystonia (CD) G24.3 or sialorrhea K11.7
- Are NOT enrolled in a government insurance plan (e.g., Medicare, Medicaid, TRICARE®, and other federal- or state-funded programs)

What's covered?

- Any size vial of MYOBLOC
- Injection procedure costs
- Injection guidance costs
 - Ultrasound or EMG
- *Note: Residents of Michigan, Rhode Island, and Minnesota are not eligible for injection procedure or injection guidance costs*

It's easy to enroll.

Your healthcare provider can enroll you OR you can call 1-888-461-2255, Option 3, to enroll.

- No enrollment forms needed
- No financial requirements

How much can you save?

- **Up to \$4,000 per year**
- There are NO cost limitations per injection

Please see Important Safety Information on the back page and enclosed full Prescribing Information, including Boxed WARNING and Medication Guide.

Enrollment complete. What's next?

Once enrollment is complete and your Explanation of Benefits (EOB) from your insurance provider is received:

Your out-of-pocket expenses can be paid

1. Directly to your site of care on your behalf (administering office, specialty pharmacy, etc.)
2. To you as a reimbursement for out-of-pocket expenses you paid to the site of care

Start saving today on your MYOBLOC treatments
Call 1-888-461-2255, Option 3

Terms and Conditions for Patients:

1. This offer is valid for commercially-insured patients only and is good for use only with a MYOBLOC prescription at the time the prescription is filled or after the product is administered to the patient. **2.** Depending on insurance coverage, eligible, insured patients may pay no more than zero dollars (\$0) for MYOBLOC and the administrative services associated with MYOBLOC, up to a maximum savings limit of four thousand dollars (\$4,000) per year. Patient out-of-pocket expense may vary. **3.** This offer is not valid for patients enrolled in Medicare, Medicaid, or other federal or state healthcare programs, or private indemnity or HMO insurance plans that reimburse you for the entire cost of your prescription drugs. Patients may not use this Program if they are Medicare-eligible and enrolled in an employer-sponsored health plan or medical or prescription drug benefit program for retirees. **4.** The offer is valid for one (1) year. **5.** US WorldMeds reserves the right to rescind, revoke, or amend this offer without notice. **6.** Offer good only in the USA, including Puerto Rico, at participating pharmacies or healthcare providers. **7.** Void if prohibited by law, taxed, or restricted. **8.** Residents of Michigan, Rhode Island, and Minnesota are not eligible for assistance with payment for injection or injection guidance-related costs, but may receive assistance with MYOBLOC. **9.** This Program is not transferable. The selling, purchasing, trading, or counterfeiting of this Program is prohibited by law. **10.** This Program is not insurance. **11.** By redeeming this assistance, you represent that you are an eligible patient and that you understand and agree to comply with the terms and conditions of this offer.

IMPORTANT SAFETY INFORMATION (continued)

MYOBLOC is a prescription medicine used in adults that is injected into:

- Muscles and used to treat the abnormal head position and neck pain that happens with cervical dystonia (CD)
- Glands that make saliva and is used to treat long-lasting (chronic) drooling (sialorrhea)

Do not receive MYOBLOC if you: are allergic to MYOBLOC or any of its ingredients (see Medication Guide for ingredients); had an allergic reaction to any other botulinum toxin product such as BOTOX® or BOTOX® Cosmetic, DYSPORT®, or XEOMIN®; have a skin infection at the planned injection site.

Tell your doctor about all your medical conditions, including if you have: a disease that affects your muscles or nerves (such as ALS or Lou Gehrig's disease, myasthenia gravis, or Lambert-Eaton syndrome); had any side effect from any botulinum toxin product in the past; a breathing problem, such as asthma or emphysema; a history of swallowing problems or aspiration; bleeding problems; drooping eyelids; plans to have surgery; had surgery on your face.

Tell your doctor if you: are pregnant or plan to become pregnant (it is not known if MYOBLOC can harm your unborn baby); are breastfeeding or plan to breastfeed (it is not known if MYOBLOC passes into breast milk).

Tell your doctor about all medicines you take, including: prescription and over-the-counter medicines, vitamins, and herbal supplements. Using MYOBLOC with certain other medicines may cause serious side effects. **Do not start any new medicines until you have told your doctor that you have received MYOBLOC in the past.**

Especially tell your doctor if you: received any other botulinum toxin product in the last 4 months; received injections of botulinum toxin such as BOTOX® or BOTOX® Cosmetic, DYSPORT®, or XEOMIN® in the past (tell your doctor exactly which product you received); recently received an antibiotic injection; take muscle relaxants; take allergy or cold medicines; take sleep medicine.

MYOBLOC can cause serious side effects, including allergic reactions. Symptoms of allergic reaction may include: itching, rash, redness, swelling, wheezing, trouble breathing, or dizziness or feeling faint. Tell your doctor or get medical help right away if you get wheezing, or trouble breathing, or if you get dizzy or faint.

Other side effects of MYOBLOC include:

- Cervical Dystonia: dry mouth, trouble swallowing, injection site discomfort or pain, headache
- Sialorrhea: dry mouth, trouble swallowing

For more information, refer to the Medication Guide or talk with your doctor.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
